📍 Tan Phu District, HCM

Education

Faculty Of Information

Technology - Major in Software Technology

2022 - 2026

VanLang University

Skills

Frontend: Angular, TypeScript, HTML/CSS/SCSS, Kendo UI

Database: SQL Server, MongoDB/Mongoose, EF Core (basic)

Testing: Selenium WebDriver, TestNG

Career goals

- Start as Intern to gain real-world project experience and team practices (Scrum, Git, CI/CD).
- Improve Web/Backend/Automation Testing skills and clean-code habits.
- Post-internship goal: become a full-time employee and contribute long-term.

Work experience

Frontend

15/6/2025 - 5/11/2025

3P Technology Solutions Company Limited

- Participated in real-world company projects, developing frontend for enterprise management systems.
- Designed and built interfaces following UI/UX principles with Kendo UI, optimizing user experience.
- Implemented business logic and state management in TypeScript (services, RxJS, form validation, routing) using Angular.
- Collaborated with backend teams to integrate REST APIs; contributed to API development/adjustments in C# (.NET Core) when needed.
- Worked with SQL Server (schema design, queries, basic optimization); used Postman for API testing.

Projects

Member (Frontend & Backend)

2024 - 2025

Shopping-Online – Clothing Store Website

Tech: HTML, CSS, JavaScript, Node.js/Express (REST APIs)

Responsibilities:

- Collected requirements (product management, cart, checkout, user auth/registration).
- Designed the UI/UX and built the frontend with HTML/CSS/JS; optimized usability.
- Implemented features: product catalog, add/update cart, checkout flow.
- Designed and implemented REST APIs to interact with the database for the frontend.
- Handled client-side requests for cart, payments, and user management.

Member

2024 - 2025

Functional Testing of KiotViet & CellphoneS Websites

Soft skills: presentation, problem solving, self-learning, communication, teamwork, project management

Tech/Methods: Selenium WebDriver, TestNG, Page Object Model (POM), data-driven tests with JSON & Excel

Responsibilities:

- Built a maintainable POM test framework (pages/elements/actions separation).
- Wrote automated test cases (Selenium + TestNG), enabled parallel runs and test grouping.
- Implemented data-driven testing: imported libraries, read JSON/Excel, configured file paths per scenario.
- Executed tests, logged results, generated reports; identified UI/logic/flow defects.

Frontend

HEAD Honda Management System – 3P Solutions

Tech: Angular, TypeScript, Kendo UI, ASP.NET Core (C#), SQL Server, REST APIs

Responsibilities:

- Developed frontend modules (components, routing, form validation, RxJS).
- Optimized UI/UX with Kendo UI; standardized styles and improved rendering performance.
- Integrated REST APIs with the backend; contributed to selected C# endpoints when needed.
- Authored technical/user documentation; tested APIs with Postman/Swagger and basic E2E checks.
